Questionnaire Administration

4. Preparing for questionnaire administration

Upon receipt of AOSP questionnaire and answer booklets, the AOSP project officer will—

- a. Inventory the AOSP materials received to insure that the number of questionnaires and answer booklets stated in the transmittal letter has been received.
- b. Complete the inclosed DA Form 5233 (Acknowledgment of Shipment Received). This form is stocked by the US Army Soldier Support Center-National Capital Region (SSC-NCR) only; it is not available through the US Army Adjutant General Publications Centers. Figure 1 shows a sample of a completed DA Form 5233.
 - (1) If the shipment total is correct, the AOSP project officer will acknowledge receipt on the DA Form 5233.
 - (2) If the shipment total is less than stated, he or she will list shortages on the DA Form 5233.
 - (3) If the shipment total is more than stated, he or she need not annotate the DA Form 5233 with that information. Questionnaires and answer booklets in excess of shipment total will be kept for use at the activity in case additional AOSP materials are needed.
- c. Return the pre-addressed DA Form 5233 to the SSC-NCR within 5 days of receipt.
- d. Notify the SSC-NCR project officer if there are not enough personnel at the activity to complete the answer booklets. The name and telephone number of the SSC-NCR project officer are given in the transmittal letter.
- e. Select members to complete the answer booklets per guidance in the transmittal letter and the following instructions:
 - (1) Select members whose duty specialty or military occupational specialty (MOS) matches the one printed on the front of the questionnaire booklet.
 - (2) Select members who represent both MTOE and TDA units.
 - (3) Select members from as many units, areas, and countries as possible.
 - (4) Select, if possible, members who have at least 3 months of service in the same duty position.
 - (5) Select commissioned officers in all specialty skill identifiers (SSI) within the specialty code (SC) being surveyed.
 - (6) Select warrant officers in all grades of the MOS being surveyed.
 - (7) Select enlisted members in all ranks, skill levels, and additional skill identifiers (ASI) of the MOS being surveyed.

(8) Verify qualifications of members identified on SSC-NCR listing (by name), if it has been provided. Replacements will be selected from within the activity if members listed are not qualified.

f. Complete DA Form 4308 (Army Occupational Survey Program Questionnaire Data Sheet) for each enlisted incumbent to be surveyed. These forms are provided with each shipment of AOSP materials for enlisted incumbents. Figure 2 shows a sample of a completed DA Form 4308.

g. Distribute enlisted AOSP materials to questionnaire administrators with suspense dates for return.

h. Distribute officer and warrant officer AOSP materials to individual survey participants with suspense dates for return.

i. Contact the SSC-NCR project officer for any further explanation. The name and telephone number of the SSC-NCR project officer are given in the transmittal letter.

5. Enlisted questionnaires

a. Questionnaire administrators appointed under DA Pam 600-8, procedure 9-9, will administer enlisted questionnaires.

b. There will be—

(1) One questionnaire administrator for the first 25 participants.

(2) One assistant questionnaire administrator for each additional group of 25 participants.

c. Questionnaire administrators will insure that each participant is provided with the following equipment:

(1) Two black lead pencils (No. 2 or 2½).

(2) One copy of the proper questionnaire booklet.

(3) One copy of the proper answer booklet.

(4) One chair with desk, table, or lap board and adequate work space.

d. Questionnaire administrators will—

(1) Administer enlisted questionnaires to groups at one central location.

(2) Check DA Forms 4308 to insure the correct duty MOS incumbents are being surveyed.

(3) Give a brief explanation of the AOSP and its purpose to the survey participants. An example follows: "You are here today to take part in an occupational survey. The purpose of the survey is to collect data about your duty MOS. The Army needs this information to find out what soldiers actually do in their jobs. The data collected is used to support and evaluate Army programs such as MOS classification and development, MOS training, and assignment policies. It is also used to develop skill qualification tests (SQT) and criteria for recruiting."

(4) Read aloud the instructions for completing the survey that are in the questionnaire booklet. Go through each section separately. Answer any questions from the survey participants. Insure all instructions are understood. Contact the AOSP project officer if help is required.

(5) Insure survey participants do not consult each other while completing the answer booklets. (Individual responses are required.)

(6) Allow one 10-minute break per hour for survey participants.

(7) Emphasize care in handling the answer booklets. The booklets are read and processed by machine upon completion; mishandling or mutilation makes them useless.

6. Commissioned officer and warrant officer questionnaires

The AOSP project officer distributes these questionnaires directly to survey participants and includes his or her name and phone number as the point of contact for help. These questionnaires are designed for self-administration.

7. Answer booklets

The following answer booklets are used in AOSP surveys:

a. DA Form 4666 (Enlisted Answer Booklet).
